

Jasmine Blundell

Jasmine is an actor, drama educator, facilitator and emcee. She graduated from East 15 Acting School, an experience that deepened her understanding of dramatic story-telling. As an educator, Jasmine has taught drama at many pre-schools, as well as primary and secondary schools, all over Singapore. Presently, she focuses on teaching, and creating interactive, digital theatre!

Due to Covid-19, Jasmine has been housebound with the rest of Singapore. But always a restless one, she decided to finally undertake a project that she always wanted to do – make muppet-style puppets! After going through many metres of felt, fleece and foam, accidentally pricking her fingers with dozens of sewing needle and gluing her hands together...Max was born! He walks, he talks, and he is really excited to share about his life with you.
